

removal or plasma-arc machining

B. Find the Persian equivalents of the following terms and expressions and write them in the spaces provided.

- 1. abrasive blasting
- 2. annealing
- 3. bench-type machine
- 4. broaching
- 5. cavitation
- 6. chipless
- 7. dull
- 8. dust collector
- 9. electro-chemical
- 10. electron-beam machining
- 11. electro-discharge
- 12. erosive
- 13. grain structure
- 14. impact grinding
- 15. heat-treated materials
- 16. high-energy density
- 17. high velocity air stream
- 18. hydrodynamic
- 19. kerosene
- 20. machinability
- 21. mass-flow rate
- 22. material-removal process
- 23. nontraditional machining process
- 24. nozzle
- 25. orthogonal cutting
- 26. oscillating cutting tool
- 27. pressure transducer
- 28. rigidity

29. segmented chips
30. shear plane
31. shear zone
32. single-point cutting tools
33. stainless steel
34. taper cutting
35. threading
36. turbulent action
37. ultrasonic machining (USM)
38. water-jet machining
